If you have any questions, please contact Carol Thomas-Jacobs, Esq.

## GENERAL INSTRUCTIONS

1. Documents shall be produced as they are kept in the usual course of business.
2. Documents shall be produced as they are kept in the usual course of business.
3. For each Document that you produce, produce the current version together with all earlier editions or predecessor Documents during the relevant time period, even though the title of earlier Documents may differ from current versions.
4. All attachments to responsive Documents shall be produced attached to the responsive Documents.
5. Format for Documents produced electronically in response to these Requests:
  - a. Any Documents produced in response to this Request should be provided as a Group 4 compression single-page "TIFF" image that reflects how the source Document would have appeared if printed out to a printer attached to a computer viewing the file. Extracted text will be included in the manner provided herein. To the extent that extracted text does not exist, these images will be processed through Optical Character Recognition ("OCR") so that they are fully searchable. Extracted text and OCR will be provided in the DAT Concordance load file. "Load files" shall be produced to accompany the images and shall facilitate the use of the litigation support database system, Concordance, to review the produced images.
  - b. Document Unitization. Each page of a Document shall be electronically converted into an image as described above. If a Document is more than one page, the unitization of the Document and any attachments and/or affixed notes shall be maintained as it existed in the original when creating the image file and appropriately designated in the load files. The corresponding parent/attachment relationships, to the extent possible, shall be provided in the load files furnished with each production.
  - c. Bates Numbering. Each page of a produced Document shall have a legible, unique page identifier ("Bates Number") electronically branded onto the image at a location that does not obliterate, conceal, or interfere with any information from the source Document. In order to ensure that the Bates Numbers do not obscure portions of the Documents, the images may be proportionally reduced to create a larger margin in which the Bates Number may be branded. There shall be no other legend or stamp placed on the Document image, except those sections of a Document that are redacted to eliminate material protected from disclosure by the attorney-client or work product privileges shall have the legend "REDACTED" placed in the location where the redaction(s) occurred or shall otherwise note the location and/or location of the information for which such protections are claimed.

d. File Naming Conventions. Each Document image file shall be named with the unique Bates Number of the page of the Document in the case of single-page TIFFs, followed by the extension "TIF". Each Document shall be named with a unique Document identifier. Attachments shall have their own unique Document identifiers.

e. Production Media. The Documents should be produced on CD-ROM, DVD, external hard drive (with standard Windows PC compatible interface), (the "Production Media"). Each piece of Production Media shall identify a production number corresponding to the production "wave" the Documents on the Production Media are associated with (e.g., "V001", "V002"), as well as the volume of the material in that production wave (e.g., "-001", "-002"). For example, if the first production wave comprises Document images on three hard drives, the Respondent shall label each hard drive in the following manner: "V001-001", "V001-002", "V001-003". Additional information that shall be identified on the physical Production Media shall include: (1) text referencing that it was produced in [Case Docket No.], (2) the producing party's name, (3) the production date, and (4) the Bates Number range of the materials contained on the Production Media.

f. Objective Coding/Extracted Meta Data. Respondent shall produce with each production of Documents extracted meta data for each Document (the "Objective Coding") included in the DAT load file. The data file shall include the fields and type of content set forth in the **SPECIAL INSTRUCTIONS** section. Objective Coding shall be labeled and produced on Production Media in accordance with the provisions set forth above.

g. Native format for Excel and databases. To the extent that such Documents exist in Excel or another spreadsheet program, produce the Document in its native format. To the extent that the Document format constitutes a database created or maintained in Access or another software program, produce the Document in its native format. If the database is based upon proprietary software, produce whatever keys and instructions are necessary to review it.

6. Format for hard copies of Documents produced in response to these Requests:

a. re-type the question or request to which the Documents respond and firmly attach the Documents to the re-typed request;

b. number all Documents consecutively, consistently with the numbers used for the Documents produced electronically;

c. you may, in lieu of producing original Documents, produce photographic reproductions of Documents, provided that the reproductions are accurate and legible, and provided that you retain the originals from which the reproductions were made until the final disposition of the matter; and

d. file the Documents together with your response to the Request.

7. These Requests require you to produce all described Documents in your possession, custody or control without regard to the person or persons by whom or for whom the Documents were prepared (e.g., your employees, distributors or dealers, competitors, customers or others).

8. If any responsive Document was, but no longer is, in your possession, custody or control, produce a description of each such Document. The description shall include the following:

- a. the name of each author, sender, creator, and initiator of such Document;
- b. the name of each recipient, addressee, or party for whom such document was intended;
- c. the date the Document was created;
- d. the date(s) the Document was in use;
- e. the title of the Document
- f. a detailed description of the content of the Document;
- g. the reason it is no longer in your possession, custody or control; and
- h. the Document's present whereabouts and custodian thereof.

9. In the event a Document that is responsive to these requests is not in your possession but you have a right to obtain the Document or a copy of the Document from a third party, you must obtain it (or a copy) and produce it in response to these requests.

10. If the Document is no longer in existence, in addition to providing the information indicated above, state on whose instructions the Document was destroyed or otherwise disposed of, and the date and manner of the disposal.

  - d. the general subject matter of the Document; and
  - e. the claimed grounds for withholding the Document, including, but not limited to, the nature of any claimed privilege and grounds in support thereof.
12. Produce Documents in the order in which you maintained them in your files, in copies of their original file folders, labeled with the folder's original file labels.
13. Do not mask any portion of any Document; produce the entire Document.
14. Use of the present tense shall be construed to include the past tense and vice versa, to make the request inclusive rather than exclusive.
